

2025 University of Chicago–Taiwan Student (UCTS) Exchange Program

The UCTS program was initiated in 2023 and aims to enhance research collaboration between the University of Chicago and Taiwan. In 2024, we supported exchange of 18 students from UChicago, NTU, NTHU, NCKU... to perform 3-month summer research. See 2024 program and activities [here](#).

In 2025 we aim to exchange 15 or more undergrad or graduate students from Taiwan and 15 students from Univ. of Chicago. Focused areas this year include *Science, Engineering and Biomedical science*.

Support for the 2025 fellows will cover summer tuition, fee and housing. We will work with students' home and host institutes to seek sponsorship and facilitate registration and visa application if necessary. Students coming to Univ. Chicago will be enrolled in the non-degree visiting student (NDVS) program.

If you are a PI... Please let us know if you can offer a research position in 2025 summer. We will share the information with interested students.

If you are a student... Are you interested in the summer research program? Please check the list of PIs, and inquire the research opportunity.
