※**Calculation Method for Average GPA** (Based on the academic performance of the previous academic year):

(The average GPA of the first semester  $\times$  total credits taken in the first semester + the average GPA of the second semester  $\times$  total credits taken in the second semester)  $\div$  total credits taken in both semesters.

Formula:

$$\frac{(\text{GPA of 1st semester} \times \text{Credits taken in 1st semester}) + (\text{GPA of 2nd semester} \times \text{Credits taken in 2nd semester})}{\text{Total credits taken in both semesters}}$$

Credits from failed courses must also be included in the GPA calculation.

**※Calculation Method for Average T Score (Based on the academic performance of the previous academic year):**

(The average T score of the first semester × total credits taken in the first semester + the average T score of the second semester × total credits taken in the second semester) ÷ total credits taken in both semesters.

**Formula:**

$$\frac{(\text{Average T score of 1st semester} \times \text{Credits taken in 1st semester}) + (\text{Average T score of 2nd semester} \times \text{Credits taken in 2nd semester})}{\text{Total credits taken in both semesters}}$$

Credits from failed courses must also be included in the average T score calculation.

※平均GPA 計算方式(依照前一學年度的成績)：

上學期平均GPA乘上學期總修習學分數+下學期平均GPA乘下學期總修習學分數最後除以上下學期相加總修習學分數。

$109_{上}GPA * 修習學分 + 109_{下}GPA * 修習學分 / (109_{上} + 109_{下}總修習學分數)$

\*不及格科目之學分也需列入平均GPA計算

※平均T分數計算方式(依照前一學年度的成績)：

上學期平均T分數乘上學期總修習學分數+下學期平均T分數乘下學期總修習學分數最後除以上下學期相加總修習學分數。

例如： $109_{上}平均T分數 * 修習學分 + 109_{下}平均T分數 * 修習學分 / (109_{上} + 109_{下}總修習學分數)$

\*不及格科目之學分也需列入平均T分數計算
