NTHU-mail

Dear partner,

We would like to inform you about the University of Groningen nomination procedure for the 2026/2027 academic year. If you are not the contact person for the nomination of your outgoing students, we kindly ask you to forward this message to the person(s) in charge.

Nomination via Mobility-Online

Students are nominated via Mobility-Online. You will need to log in using your username TW009 and self-created password. These are the login details for nominating your students. Therefore, do *not* share these login details with your students!

Username: TW009

Link [Mobility-Online](#)

Is this your first time logging in, or have you forgotten your password? You can request a one-time password by clicking on the button 'Forgot your password?'. In the next screen, you will first need to enter your username (see above) in the 'Login' field and click on the button 'request password'. You will now receive an email with further instructions. If you do not receive this email within a few minutes, please contact [the faculty](#).

When you see the 'change password screen', please enter the one-time password in the old password field, and provide a new password that fulfills the requirements stated in yellow. As an additional security measure, you need to enter the year your own university was founded. Every time you request a new password, you need to answer this question.

Please keep in mind that only students who have been nominated by our partner universities via Mobility-Online can be accepted as incoming students. If you have already sent the nominations for your students by email, please send them again through Mobility-Online. Nominated students can submit their application in the system as soon as the University of Groningen has accepted their nomination. Instructions on how to apply will be sent to accepted students.

Further information on the relevant deadlines will be provided by the faculties themselves. An overview of contact details per faculty can be found [here](#).

We look forward to welcoming your students to the University of Groningen and to our (continued) collaboration. If you have any further questions, please do not hesitate to contact us.
